

MOHAMMAD KHADDAM

Senior Back-end Developer

PROFILE

I am a senior backend developer with 5 years of extensive experience in building robust and scalable applications using Laravel, Node.js, Vue.js, and Bootstrap. Over the years, I have successfully developed and deployed various platforms including ERP systems, e-commerce solutions, food delivery systems, and taxi apps. My technical expertise is complemented by a strong understanding of both frontend and backend development, ensuring seamless integration and performance of web applications. I am dedicated to delivering high-quality solutions that meet client needs and industry standards.
